No: TB100	Rev: 0	Date: March 24, 2014		
TESCO Top Drives and Casing Drive Systems Nameplates Incorrectly Engraved with API Spec 8C				
<input type="checkbox"/> Internal Use Only		<input checked="" type="checkbox"/> External Use	<input checked="" type="checkbox"/> Mandatory	<input type="checkbox"/> Recommended

NOTE: All numbers in parentheses are TESCO part numbers unless otherwise noted.

BACKGROUND INFORMATION:

The nameplates on several of the TESCO Top Drive power modules and manifolds, as well as CDS units, were inadvertently engraved with the API Spec 8C monogram and license number (Figure 1 and Figure 2). The power modules, manifolds and CDS units do not require API certification, therefore the nameplates should not have an API monogram and license number engraved.

AFFECTED PRODUCTS:

All TESCO Top Drives power modules and manifolds; all Casing Drive Systems.

ACTION REQUIRED:

Check to see whether the nameplates on the top drive power modules and manifolds, as well as CDS units, are engraved with the API Spec 8C monogram and license number. If so, use an angle grinder to remove the monogram and license number from the surface of the nameplate until they are no longer visible. (Figure 3 and Figure 4).
